

**Raufoss**  
FUEL SYSTEMS

Raufoss Fuel System AS develops and supplies high pressure gas storage systems for vehicles and gas distribution. Key components are light weight composite cylinders. We are a 100% subsidiary of Hexagon Composites ASA ([www.hexagon.no](http://www.hexagon.no)). In close cooperation with our affiliated companies RAGASCO AS in Norway and LINCOLN COMPOSITES in the US, our group has become a worldwide leader in manufacturing and supply of lightweight pressurized gas storage for city buses, passenger cars and gas transportation. Compressed natural gas (CNG), bio methane and hydrogen represent the major alternative to fossil fuels in the transport sector within the near future. In order to follow the internationally growing market demands we increase our sales team with the

## **Manager Sales High Pressure Products**

The responsibilities include the support and expansion of our CNG/biogas related business in Europe. You will further manage in-house all our international supply contracts from order to delivery in close cooperation with our technical departments. You will organize and participate in international conferences and exhibitions and support the development of our print and internet communication.

Having a solid technical background and preferably experience from supply relationships with the automotive or gas industry, your structured approach will strengthen and increase the relationships with our technically demanding customers. The general business language is English. Ideally you communicate fluently also in at least one other European language, preferably German or French.

The position is located in Raufoss, Norway. The position offers both challenges and opportunities in a successful, future oriented and international business environment. For further information please feel free to contact our Dir, Marketing & Sales Frank Häberli – Tel. +4792088674/email [fh@rafs.no](mailto:fh@rafs.no) or our Managing Director Tore Fjell – Tel. +4792033337. **Please forward your application including CV and references until 31.03.2010 to [fh@rafs.no](mailto:fh@rafs.no).**
